

Office Trailers

CUSTOM BUILT TO YOUR SPECIFICATIONS

We understand that many people have different requirements when running their business. Our office trailers allow you the ability to improve the efficiency of your operation. We've dealt with many different types of businesses. We welcome the opportunity to assist in the design of your trailer. Our customers provide their particular requirements. The Brothers staff will construct a custom unit that will provide you and your staff a comfortable work place and promote a professional image.

All our standard office trailers incorporate our Alum-A-Body construction. Proper function and maximum durability is important to us. We ensure that the chassis and structure are designed and built specifically for each individual unit. Whether it's an executive office suite, office/living area, or office/entertainment area, we will provide you with a custom floor plan to meet your needs and operation requirements.
